MILLOM - THE HOUSING OF WORKMEN AND BELGIANS, AND THE PROVISION OF WORKMEN'S TRAINS, 1914-18 PETER SCHOFIELD

VOLUME VOL 20 (2020). PP. 213 - 226

Number of times words found : 139

Although there has been some discussion on workmen's trains in Cumbria during the period 1914-1918, there has been surprising little relating to the town of Millom. This article explores how the Millom to Barrow workmen's trains were initiated and considers their effects upon the town and the travelling workforce. Looking first at the pre-war period and then examining the First World War and the Armistice, the subjects of housing, Belgian refugees, munitions work and conditions on the railway are.....

MILLOM : A VICTORIAN NEW TOWN. ALAN HARRIS, M.A., PH.D

Number of times words found : 88

ART. XXVII.--Millom : a Victorian new town. By ALAN HARRIS, M.A., Ph.D. Read at Kendal, April 2nd, 1966. DURING the second half of the 19th century the mining districts of Cumberland and north Lancashire passed through a phase of rapid change. The winning of iron ore, in some places already an old and well established local activity, grew rapidly in importance with the rise of the Bessemer steel industry in Sheffield, South Wales, and elsewhere. At the same time the production of pig iron was grea.....

ART. XII ? Millom: An industrial colony 1860-1875 BY RUTH HUGHES N 1966 Alan Harris contributed an article to Transactions on the growth of Millom as a Victorian New Town.¹ Millom town's development (as Harris rightly argued) was intimately interwoven with the development of the area's iron ore industry and

its two main employers, the Hodbarrow Mining Company and the Cumberland Iron Ore Mining and Smelting Company Ltd. However, recent research has shown that, in fact, the Hodbarrow Mining

THE HODBARROW IRON MINES. ALAN HARRIS AND RONALD B. DAVIS

VOLUME VOL 68 (1968). PP. 151 - 168

Number of times words found : 34

ART.XI.--The Hodbarrow iron mines. By ALAN HARRIS, M.A., Ph.D., and RONALD B. DAVIS, C.Eng., A.M.I.M.M.Read at Grange-over-Sands, September 1st, 1967. ALTHOUGH iron mining in Cumberland has a long history, the middle of the 19th century may be regarded as the beginning of the greatest age of all, for the industry then experienced a series of changes which eventually altered profoundly both the landscape and economy of several parts of the county. The Hodbarrow iron mines in south Cumberland illustrate.....

CUMBRANS AND THE KLONDIKE GOLD RUSH IAN D HODKINSON

VOLUME VOL 21 (2021). PP. 215 - 238

Number of times words found : 33

This paper tells, from a Cumbrian perspective, the story of the Klondike Gold Rush in what is now Canada's Yukon Territory. It describes how overnight the name Klondike, and its association with gold and untold riches, fired the

imagination of the people of Cumbria and led to its rapid assimilation into Cumbrian culture. The word was widely used locally to name prize animals, machines, ships, mines, societies and places, and featured as a theme in many songs, stories, advertisements, plays, and

ART. XVIII ? Duddon Hall and its owners 1784-1860 BY TIMOTHY COCKERILL, F.S.A. SCOT HILST accounts of the ancient castles, old manorial halls and historic farmhouses of Cumbria have appeared in print¹ scant attention has been paid to the lesser country houses of the late 18th and early 19th centuries. A welcome start was made to remedy this situation by the publication in 1991 of A guide to the country houses of the north-west by John Martin Robinson. However, as his book deals not only with the

Born into a well-connected Kendal family, John Archer exemplifies how in the late 17th century an intelligent young man set about forging a career. His uncle and early role model, William Nicolson, later Bishop of Carlisle, encouraged him to apply to his alma mater Queen s College Oxford in 1690, with the initial aim of studying medicine. There he was taken under the wing of Edward Lhwyd, keeper of the Ashmolean Museum, who fostered Archer s interest in fossils and plants, a passio.....

MARY'S Church, Egremont, is one of the most interesting buildings in Cumberland, in spite of the ill usage of the last century. It was originally a church of two equal aisles, separated by fine pillars and arches, fragments of which compose the present chancel arch. The date of its erection cannot be later than 1220; its style is very early English, with a few Norma.....

HE south of Cumberland, until the close of the last century, seems to have been especially rich in that class of ancient remains, commonly called " Druidical." More than ordinary facilities were offered for the formation of these rude structures, by the numerous fragments of rock that bestrewed the district. At the breaking up of the Eskdale and other glaciers, the plain

(124)The Layburnes of Cunswick. BY WILLIAM Read at Kendal, July 11th, 1888. UNSWICK, anciently written Cunnyswick, and Connyswick, may have had its name from the number of coneyes that found safe hiding in its rocky retreats, or, from the cons that frisked and gambolled amid its leafy screens. But, whether it was the rabbit's retreat, or the squirrel's bower, its lords for 500 years were fittingly represented by the emblems of strength, courage, and magnanimity borne on their shield. The

Harrington: Cumberland's Lost Town RICHARD NEWMAN MODERN day Cumbria is one of the best areas in England for studying the development of new towns in the 17th to 19th centuries. Elsewhere in the North West, new towns like Burnley and Nelson usually developed out of existing rural settlements in an initially unplanned manner in response to local industrial growth. Cumbria's new towns in contrast were planned developments. They were generally created to encourage trade and in the earlier examples.....

(150)ART. XV.-A Sketch of the History of Egremont Castle. By W. JACKSON, F.S.A. Read at Egremont, August 31st. HE early history of the Castle of Egremont is involved in the history of the wars between England and Scotland, during most part of the twelfth century, for the possession of Cumberland. It is not my intention to repeat more of the minor details which have appeared and reappeared in our County Histories further than to maintain a certain continuity of narrative, my object being to expl.....

1 19)ART. XII.--The Mesne Manor of Thornflat.-- By W. JACKSON, F.S.A. Read at Egreernont, August 30th, 1881. THE information with regard to the Manor of Drigg, I given in Nicolson and Burn's History of Cumberland, is most meagre and unsatisfactory. It seems to have been parcelled out at an early period ; one portion of it, by purchase of Sir William Pennington from Sir Nicholas Curwen early in the seventeenth century, came into possession of the Muncaster family, and so remains. The Mesne M.....

NOTESA second settlement found at Kentmere. By WINIFRED M. INGLESFIELD In the summer of 1969 I noticed a walled enclosure at the upper end of the Kentmere valley, which Miss Fell later confirmed was an ancient settlement. It is adjacent to the Tongue House Barn at NY 452068 (6-inch O.S. Westmorland XXVII. NW). It is similar to the one lower down the valley at Millrigg, and to that at Hugill in the next valley to the south-west (RCHM Westmorland, 115 f., 130 f.). Because of its greater isolation

THE DOMESDAY BOOK OF SOUTH CUMBRIA, NEIL WHALLEY

VOLUME VOL 18 (2018). PP. 105 - 122

Number of times words found : 2

The Domesday Book for the north-west of England is limited in both its geographical extent and its level of detail, covering only the lowland areas south of the Lakeland fells with succinct entries that sometimes prove difficult to interpret, yet it remains a document of extraordinary value for the region given the paucity of local records relating to that time. Despite its importance and a general level of interest in the Domesday Book nationally, the records pertaining to the region have

VOLUME VOL 16 (2016). PP. 73 - 93

Number of times words found : 2

The history of enemy aliens has been studied at a national level based largely on government documents, but few regional studies have been written which might test the appropriateness of the national picture when applied locally. This article examines the fate of German and Austrian-born nationals who had become naturalised British citizens as well as German nationals living and working in Cumbria between 1914 and 1919. It reveals that officialdom applied the rules against enemy aliens as r.....

WOMEN IN A MAN'S WORLD; SOME FEMALE APPRENTICES AND MASTERS IN KENDAL, 1595-1731 BLAKE TYSON

VOLUME VOL 15 (2015). PP. 155 - 182

Number of times words found : 2

Kendal apprenticeship indenture records survive from 1571 to 1736 and are a rich source for local history. They help to overcome difficulties caused by gaps in parish registers, especially that for Kendal, from 1632 to 1678, and deserve more attention. This article traces evidence for three female apprentices and also six widows who, after their tradesman husband died, became masters and contributed to Kendal's commercial and social life. The Corporation often adapted, or ignored, the stri.....

James Robert Phillips, a Cumbrian by birth, was killed leading an embassy to Benin City in 1897. The fate of his entourage led to the Benin 'punitive expedition' and the subsequent sack of Benin City. Phillips's death was followed by the raising of funds for memorials in England and West Africa. Committees were established for that purpose in Cumbria and London and included old boys from Uppingham School where he had been educated. One of these was Canon H.D. Rawnsley who was a key figure.....
